DrainLine 150
*Trench Drainage for
residential areas*

DrainLine 150

DrainLine 150 is a durable polymer concrete trench drain system for use around residential, office, and other light duty areas. It is a practical system for draining large amounts of water.

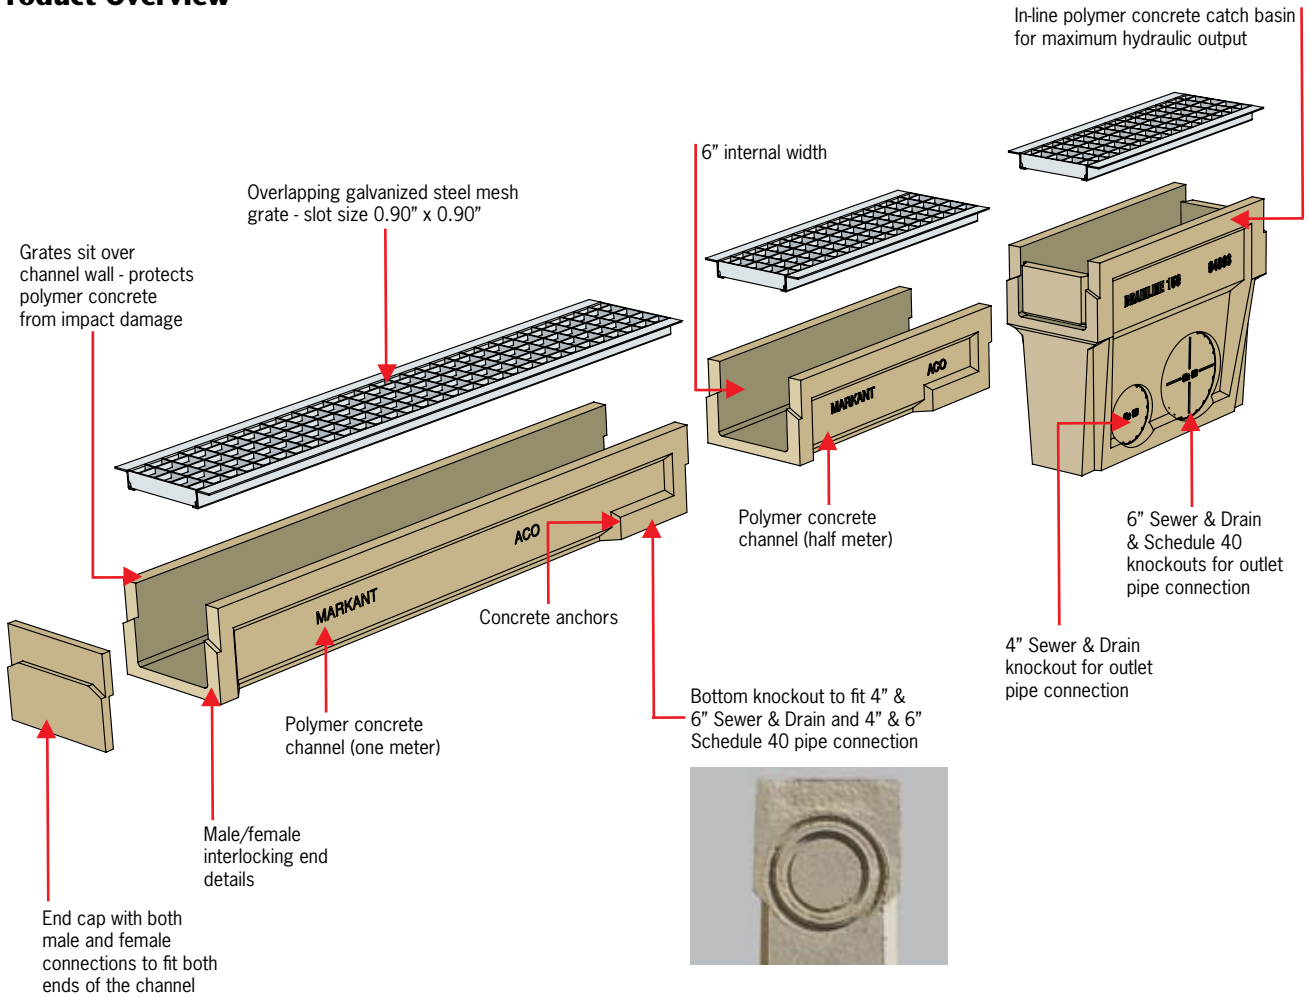

The system offers a number of layout options; with half meter channels and in-line catch basin. A number of outlet options are also offered with bottom knockouts and in-line catch basin connections to suit 4" & 6" Sewer & Drain and 4" & 6" Schedule 40 pipe.

Suitable for pedestrian/light vehicle traffic applications such as:

- Driveways
- Patios
- Underground parking
- Duplexes
- Walkways
- Cart paths

Product Overview

Part Table

| | Part No. | Length inches | Width inches | Height inches | Wgt. lbs |
|------------------------|----------|---------------|--------------|---------------|----------|
| Channel with grate | 03612 | 39.3 | 7.8 | 5.7 | 47.1 |
| Channel with grate | 03616 | 19.6 | 7.8 | 5.7 | 23.5 |
| Catch basin with grate | 04093 | 19.6 | 7.8 | 15.7 | 61.0 |
| Closing cap | 03697 | - | 7.8 | 5.7 | 1.5 |

Installation Instructions

1

Excavate area to allow room for channels/catch basin and 4" of concrete on all 3 sides.

2

Pour concrete bed - 14" wide by 4" deep, keep outlet pipe clean.

3

Lay channels starting at outlet. Set a string line at required height to ensure level.

4

Push-fit grates into channels. Protect with plastic if using concrete or asphalt paving.

5

Install pavers or finish pavement surround to required level, should be 1/8" above grate.

6

Clean away debris, remove protective plastic if necessary. Seal joints if required.

Other Markant by ACO product lines

HexaDrain

HexaDrain is an innovative plastic residential trench drain systems. It offers simple and easy installation due to push-fit components

HexaDrain BrickSlot

HexaDrain BrickSlot is a discreet drainage solution for use with pavers. The slot blends in with paving joints giving an aesthetic solution.

DrainLine 100
